Let us design a customized curriculum for your child!

Overview

Gillis Education's overarching philosophy is that every child is unique and their learning environment -- everything from the teaching methodologies employed to the educational materials used -- should be tailored to their specific needs. Homeschooling, unlike traditional school settings, provides a great amount of flexibility and the opportunity for creative customization. We use a variety of texts, workbooks, and oftentimes create our own instructional videos and activities to meet the demands of our students.

Gillis Education's homeschooling services include:

- virtual/live instruction from experienced teachers and/or tutors
- an interdisciplinary curriculum curated specifically for your child based on their academic needs, challenges, and interests
- student portfolio management
- compliance checks to ensure that your student's homeschooling curriculum aligns with state laws
- academic coaching for older students to assist with transitioning to college/vocational school and career planning

Pricing

Because we design every child's curriculum from scratch and handpick the materials each child uses, pricing varies. It is typically based on the number of hours of live instruction that will be needed. It also depends on the number of children enrolled in the program. However, the price typically ranges between \$400 - \$700 per month including most materials. We are happy to design a plan within your family's budget.

LET'S GET STARTED!

Steps for Enrollment

1. **Schedule a free consultation** (phone call) to discuss exactly what you're looking for in a homeschooling program.
2. **Schedule an evaluation** (virtual meeting) where a Gillis Education representative will meet your child, give them a diagnostic exam, and get to know their learning style and personality. The diagnostic exam tells us exactly where your child is academically so that we know how to structure our initial lessons.
3. After the evaluation, we'll get to work on **designing your child's custom curriculum** and setting a flexible schedule for homeschooling!
4. **Officially register your child** by submitting your first payment and reviewing and signing off on our policies, terms and conditions.

We can't wait to work with you and your family!
